

Candle making DIY for beginners

As a beginner myself I thought I would bring you a beginners video on how to make a candle from scratch.

This video will show you an easy way to make a candle as a beginner and believe me it didn't go smoothly but turned out great. I am hoping you can learn from this beginner video.

It is very bright in places so apologies for getting the exposure wrong.

I used an old candle jar cleaned and dried thoroughly

I used candle wicks from Amazon AFF:
